

## MFL

### Intent

Our MFL curriculum is based around the National Curriculum. Our MFL subject intent will facilitate children from Year 3 through to Year 6 in their competence and confidence to engage with Spanish and language learning. In early years and KS1 we intend to familiarise children with foreign languages through song. In KS2, the children will learn skills such as decoding phonics and building phrases to improve communication. By the end of year 6, children should be enthusiastic and be able to identify similarities and differences between foreign languages and to develop strong, long-life linguistic skills. The children will also broaden their understanding of the world and appreciate cultures within the country that they study. *“The decision to learn a foreign language is to me an act of friendship. It is indeed a holding out of the hand. It’s not just a route to negotiation. It’s also to get to know you better, to draw closer to you and your culture, your social manners and your way of thinking. And the decision to teach a foreign language is an act of commitment, generosity and mediation” John Le Carre.*

### Rationale

Units are 6 x 30 minute sessions plus 2 x 5 mins of sticky learning per week. Units are taught in a set sequence of lessons: 2 x vocab lessons, 2 x grammar lessons using the vocab to ask and answer questions, 2 x special project lesson with a specific outcome (telling a story, role play, playground game, performance of song or poem, posters for display, communication with partner school). Only the special project lessons can be blocked, the other lessons need to be spaced out to allow for absorption and sticky learning.

Process:	What will this stage contain?
Present/investigate vocabulary (VOCAB 1)	Games, drilling, matching activities, attention to pronunciation, sorting into masculine/feminine, spot the mistake, notice cognates and false friends, notice accents and phonemes, record voices or video, mind mapping, bilingual dictionary work, songs. Focus on speaking and pronunciation.
Practise vocabulary further (VOCAB 2)	Consolidate and extend if possible. Repeat games and activities that were enjoyed in VOCAB 1 to increase fluency. Focus on reading/writing the words as well as pronunciation.
Introduce simple question /answer with vocabulary (GRAMMAR 1)	Present and practise. Good place to include comprehension tasks using listening and reading.
Extend question/answer (GRAMMAR 2)	Often extend with porque (because) + adjective, pero (but), y (and)
SPECIAL PROJECT 1	Join learning up with a purpose - poster, playground game, joining in or re-telling a story, letter or postcard to partner school, leaflets, performance of song or poem
SPECIAL PROJECT 2	Conclude and share learning with an audience (another class, link school, parents, assembly, display, native Spanish speaker in school or school community. One special project for each year group is shared with the link school in Madrid. This is highlighted on the plan in red.
